NO MADRID PAPERS BECAUSE OF STRIKE PASSES UNNOTICED Spaniards Not a Newspaper-

Reading Public—Bonus From Government.

MADRID, January 23 (Correspondence of the Associated Press). In almost any other of the world's cities it would be considered a calamity to be without newspapers. Madrid has just-passed through such an experience in a period of political crisis and during a lockout in Barcelona, the chief industrial city of Spain.

Absence of the newspapers passed almost unnoticed because the people

of Madrid are not a newspaper-read-ing public. Compared with other western cities of Europe the circulation of the newspapers here is very small. Many a small town newspaper proprietor in America would consider himself very badly treated if his circulations. NEW YORK, January 23 -Many culation books did not make a better Jews have been drowned in the Black showing than those of the metropolitan dailies of Madrid.

Poor Advertising Showing. The advertising columns, too, make a poor showing compared with news-papers of other large cities. An income of \$6.000 a month is considered good. The papers are sold at either of 10 centimos, but the government gives the papers a bonus of another centimo for each paper sold, owing to the increased cost of production.

The shutting down of the newspapers was due to a strike of newspaper workers. Editors who ceived 500 pesetus a month asked for an increase of 20 to 30 per cent. Reporters drawing 50 to 150 pesetas manded a minimum of 300 pesetas. ompositors asked for a 20 to 30 per Feature of Ball Planned for Lincoln's libertad and the Hoy, were born.
